Installation
getting started
MAC

3D-VIZ.com

01. IMPORTANT! Install the Software first before you connect the AT360 to the Computer
02. If you have an older version of the 3D-VIZ TOOL on your computer? Please follow these steps first. If not, continue with point 03
 - A. Please make a Backup from your bought Templates.
 - B. Delete the Template folder.
 - C. Install the 3D-VIZ-TOOL as described below.
 - D. Copy the previously saved, bought Templates in the new Template folder.
03. AT360 comes with an USB Stick.
04. on the USB Stick you will find two Folders: SOFTWAREFOLDER & GUIDES
05. plug in the USB Stick
06. put both Programs (3D VIZ CONTROL and 3D VIZ TOOL) into the Applications Folder on your Mac.
07. great! Software is installed
08. now continue with the AT360 Turntable
09. adjust your AT360 with the heavy duty wheels.
10. connect USB cable from AT360 to your Computer
11. connect the AT360 to the power supply
12. connect the Jack connector from AT360 to your camera
13. now turn on the AT360
14. open your program 3D-VIZ.COM CONTROL and 3D-VIZ TOOL
15. ... and turn on your camera
16. ... set your Camera to „MANUAL“ focus
17. ... you are ready to shoot
