**getting started**

# 3D-VIZ.com

01. IMPORTANT! Install the Software first before you connect the AT360 to the Computer
02. AT360 comes with an USB Stick.
03. on the USB Stick you will find three Folders: SOFTWAREFOLDER, DRIVERFOLDER MAC & GUIDES
04. plug in the USB Stick
05. copy both programs (3D VIZ CONTROL.zip and 3D VIZ TOOL.zip) on your desktop
06. doubleclick the 3D VIZ CONTROL.zip and copy the setup.exe on your desktop
07. doubleclick the setup.exe as administrator (right mouse button „run as administrator“)
08. repeat point 06 and 07 with the 3D VIZ TOOL.zip
09. great! Software is installed
10. now continue with the AT360 Turntable
11. adjust your AT360 with the heavy duty wheels.
12. connect USB cable from AT360 to your Computer
13. connect the AT360 to the power supply
14. connect the Jack connector from AT360 to your camera
15. now turn on the AT360
16. open your program 3D-VIZ.COM CONTROL and 3D-VIZ TOOL
17. ... and turn on your camera
18. ... set your Camera to „MANUAL“ focus
19. ... you are ready to shoot
